

Confined Spaces – ZGT117

Instructor

COURSE OVERVIEW

This course is designed to impart a training base for adult educators so that they are able to prepare and administer a confined space safe entry/escape using BA to other individuals within their company.

It is designed to cover the legislation, working practices and safety requirements for access to all types of confined space, and includes the use of single stage vertical access systems (harnesses, winches and tripods to enter shafts or ladder ways). The course covers the use of escape breathing apparatus, gas detectors and communication systems.

It includes program standards, lesson plans, slides, exam keys and a copy of the student manual.

Pre-requisites

- Preparing to Teach in the Lifelong Learning Sector (PTLLS) (6302) or similar qualification

Who Should Attend?

This course is for corporate in house trainers and provides them with the technical knowledge and resource materials to enable them to deliver professional Confined Space training to all of their staff.
