

CONFINED SPACES – ZGT127

Emergency Rescue & Recovery of casualties from confined spaces using Full Breathing Apparatus

COURSE OVERVIEW

This course specifically concentrates on the advanced rescue skills required to provide on-site cover for those working in confined spaces (of any type). It assumes previous qualification in entry and BA, and covers searching, advanced winching and hauling systems, operations in zero visibility, incident management and immediate-response risk assessment

Pre-requisites

Candidates should be physically fit and medically capable of using positive pressure breathing apparatus and currently hold a valid qualification in Confined Space Safe Entry and Escape including the use of full BA (High Risk or equivalent)

Who Should Attend?

Persons who are required to provide professional on-site rescue cover for confined space operations, including evacuation of casualties using stretchers, searching and rigging of hauling systems.

COURSE OBJECTIVES AND CONTENT
